

# Handcrafted Log Stairs

**WYOMING LOG HOME  
MANUFACTURING CO.**

A log staircase is truly a unique and powerful focal point of your home. Handcrafted from spruce and lodge pole pine these staircases are truly a work of art.

Our staircases are made with double stringers and square treads. Stringers for the stair cases are made of at least 12" x 12" square cants. The treads are made out of 4 x 12 materials. All materials are hand crafted. Staircases can be a straight run, an "L", a "u", or just about any other configuration.
